

QUALITY AND ENVIRONMENT MANAGER**THE COMPANY**

APEAL-The European association for steel for packaging represents 85% of the steel for production in Europe 27 and acts on all environmental issues related and influencing steel packaging. They are situated in Brussels (1200).

THE POSITION

You will be entrusted with the following main tasks:

- researching, monitoring and information gathering concerning EU environmental policies and legislation for the steel for packaging industry (e.g. LCA, REACH, CEN/ISO);
- building up a steel for packaging knowledge centre, drafting reports and proposals destined to a wide range of audiences and answering requests for information: in other words, being the 'key contact person' for all technical/environmental questions, analysing complex issues and translating them in accessible language;
- coordinating technical working groups (REACH, life cycle analysis, normalisation, Food contact,...);
- representing the industry in expert meetings and be responsible for drafting position papers in collaboration with the APEAL members;
- supporting the steel for packaging industry through effective communication with the environmental regulators at European institutions;
- reporting on progress to the APEAL members.

THE IDEAL PROFILE

- **Languages:** Fluent in English with proven drafting ability - have working knowledge of at least one other official language of the EU.
- **Education:** A degree in Chemistry, Environmental Science, Environmental Management, Environmental policies or a related field or a proven ability to perform the tasks required by the position.
- **Experience:** At least 3 years experience in a similar position. Ideally, you have a practical experience in recycling, environmental issues, life cycle analysis, and standardisation.
- **Personality:** You are a highly motivated and responsible person, with strong analytical skills, team oriented, relational and communicative.
